Product Benefits

Ketones are fat-derived compounds that your body can use for fuel. This formula provides the ketones, *without* the fat.

- Ketones are organic compounds that your body creates by oxidizing fat. You can burn them instead of carbohydrates for energy. This is the basis for so-called “ketogenic diets.” But these kinds of diets are rich in fat, and, therefore, unhealthy for you long-term. This formula provides supplementary ketones that your body can use for fuel without the drawbacks of a ketogenic diet.

Keto Brain and Body Boost Benefits:

- Encourages mental clarity & muscle performance with bioactive ketone β -hydroxybutyrate
- Promotes the metabolic benefits of ketogenesis with mangiferin from mango extract
- Supports satiety & promotes healthy, prolonged energy with FiberSmart® resistant starch
