

NAD+ Cell Regenerator™ Nicotinamide Riboside

Get advanced defense against cellular aging

Item #01904 • 100 mg, 30 vegetarian capsules

Age-related declines in cellular metabolism and energy production can lead to feelings of fatigue and lack of motivation.¹ NAD+ Cell Regenerator™ combats this with NIAGEN®, the first commercially available form of *nicotinamide riboside* — an essential compound that promotes systemic youthful functions,² regulates genes^{3,4} that control aging,⁵ and more.

Nicotinamide riboside combats the aging process by increasing cellular levels of *nicotinamide adenine dinucleotide (NAD+)* in the body.^{6,7} Restoring NAD+ levels promotes mitochondria growth and efficiency, which supports cellular energy and physical performance.⁵

Replenishing youthful levels of the NAD+ enzyme also encourages healthy cognitive function,⁸⁻¹⁰ and supports healthy blood sugar levels already within the normal range.⁵ Ward off the negative effects of aging at the cellular level, rejuvenate cellular energy output and promote mitochondrial health with NAD+ Cell Regenerator™!

One vegetarian capsule contains:

NIAGEN® Nicotinamide Riboside 100 mg
Other ingredients: microcrystalline cellulose, vegetable cellulose (capsule), silica, vegetable stearate.

NIAGEN® is a registered trademark of ChromaDex, Inc., Patents see: www.ChromaDexPatents.com.

Non-GMO

Dosage and use

- Take one capsule daily with or without food, or as recommended by a healthcare practitioner.

Due to license restrictions, this product is not for sale to physician/CAM or MLM wholesalers in the USA, Canada or the Philippines.
